Claim Rejections - 35 USC § 102

Claims 1-4 are rejected under 35 U.S.C. 102(e) as being clearly anticipated by Townsend et al.

Portion 11b has three tubes in a triangle as recited and a handle 11a parallel with the tubes. All of these members are molded in one-piece, column 5, lines 21-24.

Regarding the "clip member" of claim 2, the bend 31 meets such a broad recitation.

Response to Arguments

Applicant's arguments have been fully considered but they are not persuasive. Applicant is directed to column 5, lines 27-34, which indicates that three short tubes make up portion 11b, these tubes reading on the tubes recited. It is further noted that even the long insert tubes have a lower opening 27 (Fig. 13) and meet the limitation "shorter than any club" since the clubs have not been recited.

Allowable Subject Matter

Claims 5 and 6 are allowed.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the

Art Unit: 3634

shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
